

Seamlessly Integrate Lab Order Entry with **CPOE Connect**

Accelerate Time to Market for Lab Order Entry

Lifepoint offers CPOE Connect, an easy to integrate EHR plug-in solution for lab order entry. CPOE Connect uses the same CPOE lab order entry functionality that is in use by over 200 labs and hospitals nationwide.

Integrate with **CPOE Connect** – A Smart Choice for EHR Vendors

Lifepoint CPOE Connect requires no retooling or modification to your EHR software and can greatly reduce existing CPOE development costs.

CPOE Connect Features:

- Integrated through SSO and web services
- ABN generation with pricing
- Validates demographics at point of care
- Enables episodic order association
- Direct HL7 interfaces to Cerner, Sunquest, SCC Soft, Misys, Seacoast and more
- Advanced PDF 417 symbology for 2D barcoded interfaces to Meditech, Antrim and others
- Split requisition logic based on insurance rules or provider preference
- Manifest list, pending orders list
- Specimen labeling capability
- Instrument ready bar codes
- AOE (Ask at Order Entry) question support
- Rules-based order routing
- Medical necessity checking with frequency coverage
- Results reporting

CPOE Connect Benefits for EHR Vendors:

- Field proven order entry since 1999
- Embedded as a simple plug-in
- Less work and increased productivity
- Test compendium standardization
- Field proven solution
- Reduce CPOE development costs
- Shorten EHR sales cycle
- Seamless to end users
- Conforms to provider workflow
- Help providers meet Meaningful Use
- Provides clean and validated orders
- Promotes accuracy and reduces workload
- Secure and HIPAA compliant

Partner with Lifepoint Informatics – Lab Order Entry Experts

Accurate and efficient laboratory order entry is an essential component for any EHR. CPOE Connect is a feature rich solution that deploys easily within the EHR and is seamless to the end user.
